OBJECTIVE

Motivated and detail-oriented **Full Stack Developer** and Information Technology graduate with hands-on experience in **Laravel, PHP, Flutter, React, JavaScript, TypeScript, and MySQL**. Experienced in developing web and mobile applications, REST APIs, dashboards, database-driven systems, and UI/UX designs. Strong problem-solving and system analysis skills with a focus on writing clean, maintainable, and scalable code. Eager to contribute to a professional development team and build reliable software solutions.

EXPERIENCE

Full Stack Developer

Doing Company | Sana'a, Yemen | August 2025 – Present

- Developed and maintained web applications using **Laravel, PHP, MySQL, and modern frontend technologies**.
- Built and integrated **RESTful APIs**, authentication systems, dashboards, and backend services.
- Worked on multiple software projects, contributing to both **frontend and backend development**.
- Developed and maintained **Flutter mobile application modules**, implementing UI, business logic, and API integration.
- Designed and implemented responsive user interfaces based on **Figma** designs.
- Worked with databases, including database structure, relationships, queries, and data management.
- Used **Git and GitHub** for version control and collaborative development.
- Participated in debugging, testing, troubleshooting, and improving application performance.

Training – Mobile & Web Development

Doing Company | Sana'a, Yemen

1 August 2025 – 1 November 2025 (4 Months)

- Completed hands-on training in Flutter and Laravel development.
- Worked on multiple backend projects using Laravel, including authentication, APIs, and dashboard features.
- Contributed to several Flutter app modules, focusing on UI implementation and app logic.
- Designed a complete wallet application UI in Figma, including layout, components, and user flow.

Application Developer – Knowledge Share App

Freelance | Sana'a, Yemen

2024 – Present

- Developed and maintained a knowledge-share mobile application using Flutter.
- Designed UI/UX mockups and high-fidelity prototypes using Figma, implemented core app functionalities, and collaborated with users for feedback-based improvements.

System Analyst -ERP Systems

General Organization for Social Insurance and Pensions | Sana'a, Yemen

2024 – 2025

- Analyzed business requirements and helped design integrated ERP solutions.
- Participated in data modeling and functional process analysis.
